Exploring Interest in the Council-Manager Form of Governance in Croatia

How receptive are transition countries—those moving from authoritarian to democratic governance—in adopting components of the U.S. council-manager reform model of governance to rectify low administrative and fiscal capacities?

Are Independents Showing Us a Path Away from Political Polarization?

Far too often stories about our politics are disheartening accounts of political dysfunction, ideological polarization, and partisan gridlock, leaving many Americans disillusioned or cynical about our political system. But in 2024 there was a refreshing shift away from the straight-ticket voting that has long characterized support for the two major parties.
